

New Source Review newspaper advertisements for construction permit applications, January 27, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: January 25, January 26, or January 27, 2005. Public notices are generally published every two weeks. The previous publication of public notices was January 19 – 21, 2005.

### PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Bedford County Ready Mix with a mailing address of P.O. Box 732, Manchester, TN 37349. They seek to obtain an air contaminant permit (Division identification number: 02-0111-01/57930) for construction of a Concrete Batch Plant on Highway 41A, 2 miles SE of Shelbyville, TN 37160. This proposed operation would consist of cement storage silos, sand and gravel stockpiles, and associated equipment used to produce concrete which is discharged by weigh-batcher into trucks for transit mixing. Wet suppression and baghouses would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

For the Bedford County "Shelbyville Times-Gazette"--published once on or before Thursday, January 27, 2005.

The applicant is Vulcan Construction Materials, L.P. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain an air contaminant permit (Division identification number: 05-0195-01/57890) for a Rock Crushing Operation located at 212 Caney Branch Road, Rockford, TN 37853. This existing operation consists of a jaw crusher, cone crusher, screens, conveyors, crushed rock, sand stockpiles, and associated equipment used to produce gravel. Wet suppression is used for pollution control. The requested modifications are to add new equipment and to increase the production rate. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Blount County "Maryville Daily Times" --published once on or before Thursday, January 27, 2005.

The applicant is Basell USA Inc. with a mailing address of 1035 Flex Drive, Jackson, TN 38301-5076. They seek to obtain air contaminant permits for construction/modification of air contaminant sources located at the same address, as follows:

(1) Polypropylene Compounding/Extrusion (Division identification number: 57-0213-03/57927). This existing operation consists of weigh hoppers, an extrusion screw, and associated equipment used to produce polypropylene pellets. Fabric filters are used for pollution control. The requested modification is for an increase in production rate. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

(2) Filter Cleanout System (Division identification number: 57-0213-06/57928). This proposed operation would consist of a common fabric filter and associated equipment used to collect and bag dust from existing fabric filters across the facility. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Madison County "Jackson Sun-Daily"--published once on or before Thursday, January 27, 2005.
